

October 24, 2021

Dear Residents and Family/Friends,

We continue to be free from COVID-19 at Seton Villa. Our goal is to keep every resident and staff member well, and we are doing an exceptional job. Thank you *everyone* for your efforts to keep our big Seton Villa family safe.

Dr. Henry and the Province continue to assess the current COVID situation and add additional measures to combat this virus. Here is the latest news.

**Third doses of COVID-19 vaccines:**

Residents of Assisted Living, floors 2, 3 and 4, you will receive your third dose COVID-19 on the afternoon of October 26<sup>th</sup> (with written consent from resident or “substitute decision maker”, as appropriate). This will be the Moderna vaccine.

For residents in Supportive Living, floors 5 and above, the date for third dose COVID-19 is not yet determined but will most likely take place in November.

**Flu shots:**

A flu shot clinic will be held in the Penthouse on November 3<sup>rd</sup>, from 9 am onwards. We will have more details on this closer to the date. We will likely call residents floor by floor as we did last time. We will send out another letter closer to November 3<sup>rd</sup>.

Take care and stay safe.

Best,

Michele Cook  
Executive Director
